Benefit Period

Benefit Period means the 12-month period beginning on the effective date of your certificate and reoccurring every 12 months thereafter.

Pre-Existing Conditions Limitation

The plan does not pay for any expense incurred due to a pre-existing condition during the 12-month period starting on the effective date of coverage.

The 12-month period will be reduced for any family member by the length of time the family member had prior coverage, which was continuous to a date not more than 30 days before the effective date of coverage under the group policy.

Pre-existing condition means a sickness or injury that:

- Is diagnosed or treated by a physician within 6 months prior to the effective date of a family member's coverage, or
- Produced symptoms within six months prior to the effective date of a family member's coverage that would cause a reasonably prudent person to seek medical advice, diagnosis, care or treatment.

Standard Coordination of Benefits (COB), Medicare Coordination, and Subrogation

Next Generation HSA contains certain provisions that may reduce benefits under the plan; a full description is contained in the policy.

Eligibility

The following are considered eligible for coverage:

- The key applicant and his or her spouse, and
- The key applicant's children and his or her spouse's children and adopted children (regardless of whether a final order granting adoption is ultimately issued), provided they are:
 - Not married
 - Dependent on the key applicant for at least 50% of their support
 - Less than 22 years of age at the time of application.

Underwriting

The health history provided on the application determines the certificate provisions and premium. Therefore, it is important that applicants answer all questions accurately and thoroughly.

If the agent assists in completing the application, the applicant should review the answers before signing. The applicant's signature attests to the completeness and accuracy of the answers.

Reviews conducted after the policy is issued may reveal health information that wasn't disclosed on the application. This may result in rescission of coverage, increased premiums, and/or exclusion riders or claims being denied under the group policy's pre-existing exclusion.
